

Call for Papers
**Resilient and Intelligent Emergency Systems and
Communication Networks (RISCN) Workshop**
*The 14th International Conference on Wireless Communications and Mobile
Computing IWCMC 2018*

**St. Raphael Resort & Marina, Limassol,
Cyprus June 25 — 29, 2018**

EDAS submission link: <https://edas.info/newPaper.php?c=23638>

Symposium Chairs:

Song Guo, The Hong Kong Polytechnic University, Hong Kong
(song.guo@polyu.edu.hk)

Lei Zhong, Huawei Technologies, Japan (zhong@nii.ac.jp)

Junbo Wang, University of Aizu, Japan (j-wang@u-aizu.ac.jp)

Celimuge Wu, University of Electro-Communications, Japan (celimuge@uec.ac.jp)

Scope:

The vulnerability of modern societies to the threats of both manmade and natural emergencies increases and scale and number of emergencies are expected to rise. When an emergency hits, the need to respond quickly and efficiently is urgent. Modern information and communication technologies are playing important role in such situations. However, in the era of information society and huge amount of data being produced, how to build resilient and intelligent information systems and communication networks remain great challenges when facing various emergencies.

The RISCN Workshop of IWCMC 2018 is soliciting original papers on research and development topics in the field of the emergency systems and communication networks. Prospective authors are cordially invited to submit original technical papers – up to 6 pages of length. Accepted papers will be published in the conference proceedings and the IEEE Xplore digital library. Topics of interest include, but are not limited to:

- Resilient Emergency Systems and Communication Networks
- Intelligent Emergency Systems and Communication Networks
- Cloud Computing for Emergencies
- Robust and Reliability of Systems and Networks for Emergencies
- Next Generation Network for Emergencies Situation
- Big Data analysis for Emergencies

Submission Guidelines:

Prospective authors are invited to submit original technical papers—up to 6 pages of length, using the EDAS link: <https://edas.info/newPaper.php?c=23638> for possible publication in the IWCMC 2018 Conference Proceedings, which will be submitted to the IEEE Xplore. Selected papers will further be considered for possible publication in three special issues in the following Journals. For more information, visit: <https://sites.google.com/site/iwcmcsicm18/> and <http://iwcmc.org/2018/>

1. The International Journal of Sensor Networks (IJSNet)
<http://www.inderscience.com/browse/index.php?journalCODE=ijsnet>
2. The International Journal of Autonomous and Adaptive Communications Systems

(IJAACS):

<http://www.inderscience.com/home.php?jcode=ijaacs>

3. KSII Transactions on Internet and Information Systems:
<http://www.itiis.org/>
4. Peer-to-Peer Networking & Applications:
<http://www.springer.com/engineering/signals/journal/12083>
5. Cyber-Physical Systems journal: www.tandfonline.com/loi/tcyb20

Note: Note: There will be best Workshop paper award that will be invited to submit a paper to IEEE Communications Magazine:

Important Dates

Submission: 15 March 2018
Acceptance notification: 30 March 2018
Registration/Camera-ready: 30 April 2018

TPC Members:
